

LOVE your skin

Over 9 years ago we were honoured to be taught how to treat skins with the Advance Techniques of Needling by the inventor himself Dr Des Fernandes. He used Gina (our manager) as his model and we learnt first hand how this procedure is *The Anti Ageing Treatment* that changes, prevents and slows down the ageing process.

In those 9 years we have gathered and accumulated a lot of experience and knowledge in how this treatment works on the skin. Our techniques have been cutting edge and have since been copied by other skin clinics in and around the country.

The Needling treatment is not for everyone due to the downtime and invasiveness .

This has led us to devise a more gentle treatment we have called Mesotherapy .

These two treatments are Advance Aesthetics and are far superior to RF, Fraxel, Peels, Laser treatments or other evasive anti ageing procedures .

With Needling, Mesotherapy, LED Environ and Dermaiduals skin care we are able to improve prevent and change skins with:

- ◆ Scarring
- ◆ Sagging
- ◆ Tiredness
- ◆ Signs of Ageing
- ◆ Wrinkles
- ◆ Enlarged Pores
- ◆ Pitting from Acne
- ◆ Sun Damage
- ◆ Pigmentation Marks
- ◆ Stretch Marks

What treatment will I need?

Your skin therapist will advise you as to which treatment will best suit you and your skin's concerns and needs.

What do I need to do?

We would like you to come in for a skin treatment first so we can assess your skin .We will advise you to be on our Skin Care for a least one month before we will treat you with either treatment, this is not a sales ploy but a vital part of us achieving to build a stronger healthier skin.

What should I expect?:

Needling: *We will cleanse your skin and apply an anaesthetic cream to the area to be treated. Once the area is numb we will start to needle the skin .We will then apply some bespoke active ingredients and will finish off with an LED treatment . We advise you to give us 2 ½ hrs of your day .Your skin can be **VERY RED** upon leaving and you are not able to wear no make up for 24/48 hrs . We will only advise our skin care to be used for 72hrs and under no circumstance apply any thing to your skin unless we have said . Your skin can feel hot similar to sun burn this will subside after 24 hours. You can stay red for up to 3 days and then your skin will begin to shed/flake because we have vastly increased the cell renewal. After 5 /7 days your skin should be back to normal.*

Mesotherapy: *We will cleanse and prepare your skin, then we will apply a bespoke selection of active ingredients onto the skin and begin to needle in small sections, we will then carry out a mini skin treatment and LED to finish. This will take 1½ hrs . Your skin will look a bit pink afterwards, like you have done a very heavy session at the gym, this will subside within a few hours, depending on the skin. You may experience some slight shedding a couple of days after.*

What skin care do you use?

With each of these treatment we have made micro channels in the skin, this is an ideal time to use the most effective ingredients to aid in cell health our skincare and to prevent any negative reactions. We use Environ and Dermaviduals skincare that are 100% guaranteed to be the safest skincare to use before during and after needling or Mesotherapy

How often do I come in?

Needling: For the most effective result we advise every 4 weeks and to do 6 treatments. After you finish your 6th you will keep noticing you skin improve for 3-6 months. We advise you to carry on with your skin treatments and to do a maintenance treatment every 3months .

MESOTHERAPY: This treatment can be done as frequently as every two weeks, your therapist will advise you as to how frequently you will need to come in.

How much do they cost?

Needling £275 includes an LED
 Mesotherapy £195 includes an LED
 With our Aesthetic Skin Programme if you have a treatment each month you will get your 4th
